Regarding the estate of the late Mr. Einar Riis

Dear Sir.

I have been working for and together with Mr. Riis and his wife for nearly ten years without any major problems. Due to certain disagreements that has occurred the last few days, it seems though – most unfortunately I would say – that my rights and claims will be challenged by Mrs. Riis.

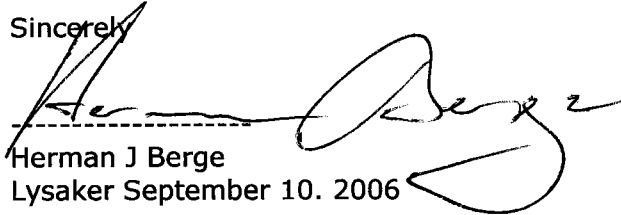

Due to this for me serious change in the course of the cooperation between the family and me, I have no other choice than pursuing my legal claims, although I deeply regret this.

Since this problem just recently occurred though, I have not yet had time to file any legal claims against the estate. In this regard I have to calculate my claims more precisely and I also need time to find a lawyer in Monaco taking care of my rights. This will obviously take some time, and in the meantime I need to be sure that the dividing of the estate of Mr. Einar Riis will rest until the legal matter has been settled.

By this you are informed that there is a claim resting on the estate of Mr. Einar Riis, and therefore there should not be any legal dividing or payments until after these claims have been settled.

PS: I have moved out of my office, and due to this my fax machine is out of order for a week or so. Any correspondence should therefore be sent by either e-mail or to the above mentioned address. DS

Sincerely

A handwritten signature in black ink, appearing to read 'Herman J Berge', written over a horizontal dashed line. The signature is fluid and cursive, with a large loop at the end.

Herman J Berge
